Exhibit 99.1

ALTRIA REPORTS 2019 THIRD-QUARTER AND NINE-MONTHS RESULTS; ANNOUNCES NEW 2020 - 2022 ADJUSTED DILUTED EPS GROWTH OBJECTIVE TO ADVANCE STRATEGIC BUSINESS PLATFORM

RICHMOND, Va. - October 31, 2019 - Altria Group, Inc. (Altria) (NYSE: MO) today announces its 2019 third-quarter and nine-months business results, reaffirms its 2019 full-year adjusted diluted earnings per share guidance and announces a new 2020 - 2022 adjusted diluted earnings per share growth objective.

“Our core tobacco businesses delivered excellent third-quarter financial results,” said Howard Willard, Altria’s Chairman and Chief Executive Officer. “Our 2019 plans remain on track, and we reaffirm our guidance to deliver full-year 2019 adjusted diluted EPS growth of 5% to 7%.”

“We continue to believe the evolution of the tobacco industry represents a significant opportunity for Altria. We marked major milestones in our transformation journey this year, including launching *IQOS* and completing the *on!* transaction. We believe that, with current adult smoker trends and e-vapor disruption, it’s an opportune time to expand the availability of these options.”

“In light of these considerations, we announce a compounded annual adjusted diluted EPS growth objective of 5% to 8% for the years 2020 through 2022. We believe this new growth objective provides us the flexibility to make investments in noncombustible offerings for the long term, generate sustainable income growth in the core tobacco businesses, and return cash to shareholders through a strong dividend. We also expect to maintain our dividend payout ratio target of approximately 80% of adjusted diluted EPS during this period.”

As previously announced, a conference call with the investment community and news media will be webcast on October 31, 2019 at 9:00 a.m. Eastern Time. Access to the webcast is available at www.altria.com/webcasts and via the Altria Investor app.

Cash Returns to Shareholders

- In August, Altria's Board of Directors (Board) increased Altria's regular quarterly dividend for the 54th time in the past 50 years. Altria's current annualized dividend rate is \$3.36 per share, representing an annualized dividend yield of 7.3% as of October 28, 2019.
- Altria paid \$1.5 billion in dividends in the third quarter. Future dividend payments remain subject to the discretion of the Board.
- Altria did not repurchase any shares in the third quarter and expects to complete the current \$1 billion share repurchase program by the end of 2020. Share repurchases depend on marketplace conditions and other factors, and the program remains subject to the discretion of the Board.

Transactions & Financing Matters

- In August, Helix completed its acquisition of Burger Söhne Holding and its subsidiaries as well as certain affiliated companies (Burger Group) that commercialize *on!* oral nicotine pouches globally. Altria indirectly owns 80% of Helix.
- In August, Altria repaid \$1.144 billion aggregate principal amount of 9.25% notes with cash on hand. As of September 30, 2019, the weighted-average coupon rate on Altria's debt was 4.2%, 0.2% lower than the 4.4% weighted-average coupon rate as of June 30, 2019.

JUUL Investment

- Altria recorded a third-quarter non-cash pre-tax impairment charge of \$4.5 billion related to its investment in JUUL. While there was no single determinative event or factor, Altria considered impairment indicators in totality, including: increased likelihood of U.S. Food & Drug Administration (FDA) action to remove flavored e-vapor products from the market pending a market authorization decision, various e-vapor bans put in place by certain cities and states in the U.S. and in certain international markets, and other factors.
- Altria has certified substantial compliance with the Federal Trade Commission second request and expects a resolution in first-quarter 2020.

IQOS Heated Tobacco System

- In September, PM USA began commercialization of *IQOS* in the Atlanta, Georgia market.
- PM USA announces the expansion of *IQOS* into the Richmond, Virginia market beginning in fourth- quarter 2019.

Cost Reduction Program

- Altria continues to expect to deliver approximately \$575 million in annualized cost savings by the end of 2019 through the cost reduction program announced in December 2018 (Cost Reduction Program). The program includes savings from workforce reductions, third-party spending reductions and the closure of Altria's Nu Mark operations.

2019 Full-Year Guidance

Altria reaffirms its guidance for 2019 full-year adjusted diluted EPS to be in a range of \$4.19 to \$4.27, representing a growth rate of 5% to 7% from an adjusted diluted EPS base of \$3.99 in 2018, as shown in Schedule 10. Altria's 2019 guidance reflects its expectation for a higher full-year adjusted effective tax rate, primarily resulting from lower dividends from ABI; increased interest expense from the debt incurred to fund the Cronos and JUUL transactions; savings from the Cost Reduction Program, which Altria expects to build through year-end to an annualized level of approximately \$575 million; and increased investments related to PM USA's lead market plans for launching *IQOS*. The guidance assumes little-to-no adjusted earnings or cash contributions from the Cronos and JUUL investments.

This guidance range excludes the special items for the first nine months of 2019 shown in Table 1 and additional estimated per share charges of: (i) \$0.01 of tax expense resulting from the Tax Cuts and Jobs Act (Tax Reform Act) related to a tax basis adjustment to Altria's ABI investment; and (ii) \$0.01 in charges associated with the Cost Reduction Program.

Altria reaffirms its estimates for the 2019 full-year U.S. cigarette industry adjusted volume decline rate of 5% to 6%. Altria maintains its compounded annual average U.S. cigarette industry adjusted decline rate estimate through 2023 of 4% to 6% until more information is known about how adult tobacco consumers will respond to e-vapor category dynamics, including regulation and legislative developments.

Altria reaffirms its 2019 full-year adjusted effective tax rate to be in a range of 23.5% to 24.5%.

Altria's full-year adjusted diluted EPS guidance and full-year forecast for its adjusted effective tax rate exclude the impact of certain income and expense items that management believes are not part of underlying operations. These items may include, for example, restructuring charges, asset impairment charges, acquisition-related costs, equity investment-related special items, certain tax items, charges associated with tobacco and health litigation items, and resolutions of certain non-participating manufacturer (NPM) adjustment disputes under the Master Settlement Agreement (such dispute resolutions are referred to as NPM Adjustment Items).

Altria's management cannot estimate on a forward-looking basis the impact of certain income and expense items, including those items noted in the preceding paragraph, on its reported diluted EPS or its reported effective tax rate because these items, which could be significant, may be infrequent, are difficult to predict and may be highly variable. As a result, Altria does not provide a corresponding U.S. generally accepted accounting principles (GAAP) measure for, or reconciliation to, its adjusted diluted EPS guidance or its adjusted effective tax rate forecast.

The factors described in the "Forward-Looking and Cautionary Statements" section of this release represent continuing risks to Altria's forecast.

2020 - 2022 Adjusted Diluted EPS Growth Objective

To advance Altria's strategic business platform for the long-term, Altria replaces its long-term adjusted diluted EPS growth aspiration of 7% to 9% with a compounded annual adjusted diluted EPS growth objective of 5% to 8% for the years 2020 through 2022. Altria expects to maintain a dividend payout ratio target of approximately 80% of adjusted diluted EPS during this period. Full-year 2020 adjusted diluted EPS guidance will be provided in January in connection with Altria's fourth quarter 2019 financial results.

ALTRIA GROUP, INC.

See "Basis of Presentation" below for an explanation of financial measures and reporting segments discussed in this release.

Financial Performance

Third Quarter

- Net revenues increased 0.3% to \$6.9 billion, primarily due to higher net revenues in the smokeless products segment. Revenues net of excise taxes increased 2.3% to \$5.4 billion.
- Reported diluted EPS decreased 100%+ to (\$1.39), primarily driven by the impairment of JUUL equity securities, 2019 Cronos-related special items and higher interest expense, partially offset by higher reported operating companies income (OCI), lower income taxes and higher reported earnings from Altria's equity investment in ABI.
- Adjusted diluted EPS increased 10.2% to \$1.19 primarily driven by higher adjusted OCI in the smokeable and smokeless products segments, lower spending as a result of Altria's decision in 2018 to refocus its innovative

products efforts and higher adjusted earnings from Altria's equity investment in ABI, partially offset by higher interest expense.

First Nine Months

- Net revenues decreased 0.8% to \$19.1 billion, primarily due to lower net revenues in the smokeable products segment. Revenues net of excise taxes increased 1.0% to \$15.0 billion.
- Reported diluted EPS decreased 91.1% to \$0.27, primarily driven by the impairment of JUUL equity securities, 2019 Cronos-related special items, higher interest expense (which includes acquisition-related costs associated with the JUUL and Cronos transactions) and lower reported earnings from Altria's equity investment in ABI, partially offset by higher reported OCI and lower income taxes.
- Adjusted diluted EPS increased 4.9% to \$3.19, primarily driven by higher adjusted OCI in the smokeable and smokeless products segments, lower spending as a result of Altria's decision in 2018 to refocus its innovative products efforts and higher adjusted earnings from Altria's equity investment in ABI, partially offset by higher interest expense.

Note: For details of pre-tax, tax and after-tax amounts, see Schedules 7 and 9.

Special Items

The EPS impact of the following special items is shown in Table 1 and Schedules 7 and 9.

NPM Adjustment Items

- In the first nine months of 2018, Altria recorded pre-tax income of \$145 million (or \$0.06 per share) for NPM adjustment settlements with 10 states.

Asset Impairment, Exit, Implementation and Acquisition-Related Costs

- In the first nine months of 2019, Altria recorded pre-tax charges of \$215 million (or \$0.08 per share), primarily due to acquisition-related costs associated with the JUUL and Cronos transactions and the Cost Reduction Program.

Tobacco and Health Litigation Items

- In the first nine months of 2019, Altria recorded pre-tax charges of \$48 million (or \$0.02 per share) for tobacco and health litigation items and related interest costs.
- In the third quarter and first nine months of 2018, Altria recorded pre-tax charges of \$21 million (or \$0.01 per share) and \$119 million (or \$0.05 per share), respectively, for tobacco and health litigation items and related interest costs.

ABI-Related Special Items

- In the first nine months of 2018, earnings from Altria's equity investment in ABI included net pre-tax income of \$154 million (or \$0.06 per share), consisting primarily of Altria's share of ABI's estimated effect of the Tax Reform Act and gains related to ABI's merger and acquisition activities, partially offset by Altria's share of ABI's mark-to-market losses on ABI's derivative financial instruments used to hedge certain share commitments.

Cronos-Related Special Items

- In the third quarter of 2019, Altria recorded net pre-tax losses of \$549 million (\$0.23 per share), consisting of the following: (i) Altria's mark-to-market losses of \$636 million due to the non-cash change during the quarter in the fair value of Cronos-related derivative financial instruments to acquire additional shares of Cronos, partially offset by (ii) income of \$87 million (included in earnings from Altria's equity investment in Cronos), substantially all of which related to Altria's share of Cronos's non-cash change in the fair value of Cronos's derivative financial instruments associated with the issuance of additional shares.
- In the first nine months of 2019, Altria recorded net pre-tax losses of \$1.1 billion (\$0.44 per share), consisting of the following: (i) Altria's mark-to-market losses of \$1.3 billion primarily due to the non-cash change during the year in the fair value of Cronos-related derivative financial instruments to acquire additional shares of Cronos, partially offset by (ii) income of \$0.2 billion (included in earnings from Altria's equity investment in Cronos), substantially all of which related to Altria's share of Cronos's non-cash change in the fair value of Cronos's derivative financial instruments associated with the issuance of additional shares.

Impairment of JUUL Equity Securities

- In the third quarter of 2019, Altria recorded a non-cash pre-tax impairment charge of \$4.5 billion (\$2.41 per share) due to the impairment of Altria's equity securities in JUUL. A full tax valuation allowance was recorded for this charge that offset the tax benefit associated with the impairment charge.

Tax Items

- In the third quarter and first nine months of 2019, Altria recorded income tax benefits of \$97 million (or \$0.05 per share), and \$56 million (or \$0.03 per share), respectively, primarily related to tax benefits of \$91 million for the reversal of tax accruals no longer required and \$30 million for the release of a valuation allowance on Altria's equity investment in Cronos, partially offset by tax expense of \$21 million and \$63 million, respectively, related to a tax basis adjustment to Altria's equity investment in ABI.
- In the third quarter and first nine months of 2018, Altria recorded income tax charges of approximately \$57 million (or \$0.03 per share) and \$152 million (or \$0.08 per share), respectively, primarily related to a tax basis adjustment to Altria's equity investment in ABI and for a valuation allowance on foreign tax credit carryforwards that are not realizable. Additionally, the 2018 first nine months income tax charges included a first quarter tax benefit related to prior audit years.

SMOKEABLE PRODUCTS

Revenues and OCI

Third Quarter

- Net revenues were essentially unchanged as higher pricing and lower promotional investments were mostly offset by lower shipment volume. Revenues net of excise taxes increased 2.5%.
- Reported and adjusted OCI increased 12.5% and 12.6%, respectively, primarily driven by higher pricing, lower costs and lower promotional investments, partially offset by lower shipment volume. Adjusted OCI margins increased 4.9 percentage points to 55.3%.

First Nine Months

- Net revenues decreased 0.9%, primarily driven by lower shipment volume, partially offset by higher pricing and lower promotional investments. Revenues net of excise taxes increased 1.1%.
- Reported OCI increased 5.3%, primarily driven by higher pricing, lower costs (which includes lower tobacco and health litigation items) and lower promotional investments, partially offset by lower shipment volume, higher resolution expenses (which includes 2018 NPM Adjustment Items) and higher asset impairment, exit and implementation costs.
- Adjusted OCI increased 8.1%, primarily driven by higher pricing, lower costs and lower promotional investments, partially offset by lower shipment volume and higher resolution expense. Adjusted OCI margins increased 3.5 percentage points to 54.4%.

Shipment Volume

Third Quarter

- Smokeable products segment reported domestic cigarette shipment volume decreased 6.6%, primarily driven by the industry's rate of decline, retail share losses and trade inventory movements, partially offset by calendar differences.
- When adjusted for calendar differences, trade inventory movements and other factors, smokeable products segment domestic cigarette shipment volume decreased by an estimated 7%.
- When adjusted for calendar differences, trade inventory movements and other factors, total domestic cigarette industry volumes declined by an estimated 5.5%.
- Reported cigar shipment volume increased 4.1%.

First Nine Months

- Smokeable products segment reported domestic cigarette shipment volume decreased 6.9%, primarily driven by the industry's rate of decline and retail share losses, partially offset by trade inventory movements.
- When adjusted for trade inventory movements and other factors, smokeable products segment domestic cigarette shipment volume decreased by an estimated 7.5%.
- When adjusted for trade inventory movements and other factors, total domestic cigarette industry volumes declined by an estimated 5.5%.
- Reported cigar shipment volume increased 2.7%.

Note: Retail share results for cigarettes are based on data from IRI/MSAi, a tracking service that uses a sample of stores and certain wholesale shipments to project market share and depict share trends. This service tracks sales in the food, drug, mass merchandisers, convenience, military, dollar store and club trade classes. For other trade classes selling cigarettes, retail share is based on shipments from wholesalers to retailers (STARS). This service is not designed to capture sales through other channels, including the internet, direct mail and some illicitly tax-advantaged outlets. It is IRI's standard practice to periodically refresh its services, which could restate retail share results that were previously released in this service.

Note: Volume includes cans and packs sold, as well as promotional units, but excludes international volume and oral nicotine pouch (tobacco-derived nicotine) volume, which are currently not material to the smokeless products segment. New types of smokeless products, as well as new packaging configurations of existing smokeless products, may or may not be equivalent to existing moist smokeless tobacco (MST) products on a can-for-can basis. To calculate volumes of cans and packs shipped, one pack of snus, irrespective of the number of pouches in the pack, is assumed to be equivalent to one can of MST.

Brand Activity and Retail Share

Third Quarter

- *Copenhagen* retail share grew 0.2 share points to 34.7%.
- *Skoal* retail share declined 0.7 share points to 15.6%

First Nine Months

- *Copenhagen* retail share grew 0.4 share points to 34.8%.
- *Skoal* retail share declined 0.7 share points to 15.6%.

Total smokeless products	53.9%	54.3%	(0.4)	53.8%	54.1%	(0.3)

Note: The smokeless products retail share results exclude international volume and oral nicotine pouch (tobacco-derived nicotine) volume. Retail share results for smokeless products are based on data from IRI InfoScan, a tracking service that uses a sample of stores to project market share and depict share trends. This service tracks sales in the food, drug, mass merchandisers, convenience, military, dollar store and club trade classes on the number of cans and packs sold. Smokeless products is defined by IRI as moist smokeless and spit-free tobacco products. New types of smokeless products, as well as new packaging configurations of existing smokeless products, may or may not be equivalent to existing MST products on a can-for-can basis. For example, one pack of snus, irrespective of the number of pouches in the pack, is assumed to be equivalent to one can of MST. Because this service represents retail share performance only in key trade channels, it should not be considered a precise measurement of actual retail share. It is IRI's standard practice to periodically refresh its InfoScan services, which could restate retail share results that were previously released in this service.

WINE

Revenues, OCI and Shipment Volume

Third Quarter

- Net revenues decreased 7.7%, primarily due to lower shipment volume and higher promotional investments, partially offset by favorable premium mix.
- Reported and adjusted OCI decreased \$13 million due to higher promotional investments and lower shipment volume.
- Reported wine shipment volume decreased 9.6% to approximately 2.0 million cases.

First Nine Months

- Net revenues decreased 1.2%, primarily driven by higher promotional investments.
- Reported and adjusted OCI decreased \$23 million, primarily driven by higher costs and higher promotional investments.
- Reported wine shipment volume was essentially unchanged at approximately 5.9 million cases.

Altria's Profile

Altria's wholly-owned subsidiaries include Philip Morris USA Inc. (PM USA), U.S. Smokeless Tobacco Company LLC (USSTC), John Middleton Co. (Middleton), Sherman Group Holdings, LLC and its subsidiaries (Nat Sherman), Ste. Michelle Wine Estates Ltd. (Ste. Michelle) and Philip Morris Capital Corporation (PMCC). Altria owns an 80% interest in Helix Innovations LLC (Helix). Altria holds equity investments in Anheuser-Busch InBev SA/NV (ABI), JUUL Labs, Inc. (JUUL) and Cronos Group Inc. (Cronos).

The brand portfolios of Altria's tobacco operating companies include *Marlboro*[®], *Black & Mild*[®], *Copenhagen*[®], *Skool*[®] and *on!*[®]. Ste. Michelle produces and markets premium wines sold under various labels, including *Chateau Ste. Michelle*[®], *14 Hands*[®] and *Stag's Leap Wine Cellars*[™], and it imports and markets *Antinori*[®], *Champagne Nicolas Feuillatte*[™] and *Villa Maria Estate*[™] products in the United States. Basis of Presentation

Altria reports its financial results in accordance with GAAP. Altria's management reviews OCI, which is defined as operating income before general corporate expenses and amortization of intangibles, to evaluate the performance of, and allocate resources to, the segments. Altria's management also reviews certain financial results, including OCI, OCI margins and diluted EPS, on an adjusted basis, which excludes certain income and expense items, including those items noted under "2019 Full-Year Guidance." Altria's management does not view any of these special items to be part of Altria's underlying results as they may be highly variable, may be infrequent, are difficult to predict and can distort underlying business trends and results. Altria's management also reviews income tax rates on an adjusted basis. Altria's adjusted effective tax rate may exclude certain tax items from its reported effective tax rate. Altria's management believes that adjusted financial measures provide useful additional insight into underlying business trends and results and provide a more meaningful comparison of year-over-year results. Altria's management uses adjusted financial measures for planning, forecasting and evaluating business and financial performance, including allocating resources and evaluating results relative to employee compensation targets. These adjusted financial measures are not consistent with GAAP and may not be calculated the same as similarly titled measures used by other companies. These adjusted financial measures should thus be considered as supplemental in nature and not considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. Reconciliations of historical adjusted financial measures to corresponding GAAP measures are provided in this release.

Altria uses the equity method of accounting for its investment in ABI and Cronos and reports its share of ABI's and Cronos's results using a one-quarter lag because ABI's and Cronos's results are not available in time to record them in the concurrent period. The one-quarter reporting lag for ABI and Cronos does not affect Altria's cash flows. Altria accounts for its investment in JUUL as an investment in an equity security. If and when antitrust clearance is obtained, Altria expects to account for its investment in JUUL under the equity method of accounting.

Altria's reportable segments are smokeable products, including combustible cigarettes and cigars manufactured and sold by PM USA, Middleton and Nat Sherman; smokeless products, including moist smokeless tobacco and snus products manufactured and sold by USSTC, and oral nicotine pouches sold by Helix; and wine, produced and/or distributed by Ste. Michelle. Results for innovative tobacco products and PMCC are included in "All Other."

Comparisons are to the corresponding prior-year period unless otherwise stated.

Forward-Looking and Cautionary Statements

This release contains projections of future results and other forward-looking statements that involve a number of risks and uncertainties and are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995.

Important factors that may cause actual results and outcomes to differ materially from those contained in the projections and forward-looking statements included in this release are described in Altria's publicly filed reports, including its Annual Report on Form 10-K for the year ended December 31, 2018 and its Quarterly Report on Form 10-Q for the period ended March 31, 2019. These factors include the following:

- unfavorable litigation outcomes, including risks associated with adverse jury and judicial determinations, courts reaching conclusions at variance with our and our subsidiaries' understanding of applicable law, bonding requirements in the jurisdictions that do not limit the dollar amount of appeal bonds, and certain challenges to bond cap statutes;
- government (including FDA) and private sector actions that impact adult tobacco consumer acceptability of, or access to, tobacco products;
- the growth of the e-vapor category and other innovative tobacco products contributing to reductions in cigarette and smokeless tobacco product consumption levels and sales volume;
- tobacco product taxation, including lower tobacco product consumption levels and potential shifts in adult consumer purchases as a result of federal and state excise tax increases;
- the failure by our tobacco and wine subsidiaries to compete effectively in their respective markets;
- our tobacco and wine subsidiaries' continued ability to promote brand equity successfully; to anticipate and respond to evolving adult consumer preferences; to develop, manufacture, market and distribute products that appeal to adult tobacco consumers (including, where appropriate, through arrangements with, and investments in third parties); to improve productivity; and to protect or enhance margins through cost savings and price increases;
- changes in economic conditions that result in consumers choosing lower-priced brands;
- the unsuccessful commercialization of adjacent products or processes by our tobacco subsidiaries and investees, including innovative tobacco products that may reduce the health risks associated with current tobacco products and that appeal to adult tobacco consumers;
- significant changes in price, availability or quality of tobacco, other raw materials or component parts;
- the risks related to the reliance by our tobacco subsidiaries on a few significant facilities and a small number of key suppliers, including an extended disruption at a facility or of service by a supplier;
- required or voluntary product recalls as a result of various circumstances such as product contamination or FDA or other regulatory action;
- the failure of our information systems or service providers' information systems to function as intended, or cyber-attacks or security breaches;
- unfavorable outcomes of any government investigations;
- a successful challenge to our tax positions;
- the risks related to our and our investees' international business operations, including failure to prevent violations of various United States and foreign laws and regulations such as laws prohibiting bribery and corruption;
- our inability to attract and retain the best talent due to the impact of decreasing social acceptance of tobacco usage and tobacco control actions;
- the adverse effect of acquisitions or other events on our credit rating;
- our inability to acquire attractive businesses or make attractive investments on favorable terms, or at all, or to realize the anticipated benefits from an acquisition or investment;

- the risks related to disruption and uncertainty in the credit and capital markets, including risk of access to these markets both generally and at current prevailing rates which may adversely affect our earnings or dividend rate or both;
- impairment losses as a result of the write down of intangible assets, including goodwill;
- the risks related to Ste. Michelle's wine business, including competition, unfavorable changes in grape supply and governmental regulations;
- the adverse effects of risks encountered by ABI in its business, foreign currency exchange rates and ABI's stock price on our equity investment in ABI, including on our reported earnings from and carrying value of our investment in ABI and the dividends paid by ABI on the shares we own;
- the risks related to our inability to transfer our equity securities in ABI until October 10, 2021, and, if our ownership percentage decreases below certain levels, the adverse effects of additional tax liabilities, a reduction in the number of directors that we have the right to have appointed to the ABI Board of Directors, and our potential inability to use the equity method of accounting for our investment in ABI;
- the risk of challenges to the tax treatment of the consideration we received in the ABI/SABMiller business combination and the tax treatment of our equity investment;
- the risks related to our inability to obtain antitrust clearance required for the conversion of our non-voting JUUL shares into voting shares in a timely manner or at all, including the resulting limitations on our rights with respect to our investment in JUUL and our inability to account for our investment in JUUL using the equity method;
- the risks generally related to our investments in JUUL and Cronos, including our inability to realize the expected benefits of our investments in the expected time frames, or at all, due to the risks encountered by our investees in their businesses, such as operational, compliance and regulatory risks at the international, federal, state and local levels, including actions by the FDA, and adverse publicity; potential disruptions to our investees' management or current or future plans and operations; domestic or international litigation developments, government investigations, tax disputes or otherwise; and impairment of our investments;
- the risks related to our inability to acquire a controlling interest in JUUL as a result of standstill restrictions or to control the material decisions of JUUL, restrictions on our ability to sell or otherwise transfer our shares of JUUL until December 20, 2024, and non-competition restrictions for the same time period;
- the risks related to any decrease of our percentage ownership in JUUL, including the loss of certain of our governance, consent, preemptive and other rights; and
- the risks, including criminal, civil or tax liability for Altria, related to Cronos's failure to comply with applicable laws, including cannabis laws.

Altria cautions that the foregoing list of important factors is not complete and does not undertake to update any forward-looking statements that it may make except as required by applicable law. All subsequent written and oral forward-looking statements attributable to Altria or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements referenced above.
